

KEYS

for Keyboard players

Alexis Porfiriadis

2012

KEYS is a work for 2 to 4 players and one Keyboard instrument (piano, e-piano, harpsichord, etc). The score consists of 70 pages, with eight (or seven in one case) different instructions on each page. Performers should cut the instructions off the pages prior to the performance, in order to create a pack of 559 cards, with one indication on each.

The performers should then choose collectively (prior to the performance) **52 to 559 cards** to perform. Cards should not be chosen in random but following a system found by the performers or simply by collective work between the performers during the rehearsals (in no case cards should be chosen individually). Before every rehearsal or concert the players should shuffle the pack of chosen cards so that there is no way of knowing the sequence of the cards in hand. All performers should play from this one pack of cards, which has been chosen collectively. This pack is to be placed on top of the piano, and all players are to read from the same card, found face up on top of the pack. Each player should take their own time to perform this card, regardless of whether this overlaps with the time of other players.

The player who plays a card last should play first on the next card. Once all players have completed a card, this player should therefore be the one to turn to the next card and start playing this card attacca or after a very brief consideration. There should not be a pre-arranged sequence to determine which performer changes the card next each time. Players should remain completely still when not playing. You are encouraged to perform your chosen action(s) as naturally as possible. Extreme displays and theatrics should be avoided.

This work is licensed under a [Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License](https://creativecommons.org/licenses/by-nc-nd/4.0/).

Minimum duration of performance: 8 minutes.

Muted	= press the Key and mute the string with palm or finger
a.f.a.p.	= press Keys as fast as possible
scat.	= scattered (press Keys in random order)
Black/White	= black/white key(s)
V.high/V.low	= Keys in very high/very low register
Sim.	= press Keys simultaneously
All	= on the entire Keyboard
Half Low/Half High	= on one half (the lower or upper register) of the Keyboard

Examples of notation:

1 Key/Long	= press one Key, sustain the sound
Keys/Long	= press two Keys (simultaneously or in succession), sustain the sound
1 Key/Muted/Short	= press one Key shortly, while muting the string
All/Sim/Loud	= play simultaneously and loud all the Keys of the Keyboard
Half Low/Long/ Sim.	= press half of the keyboard keys (lower register) simultaneously and sustain the sound
